Thank you to our growing list of repeat buyers, your support year in year out is very much appreciated. We enjoy visiting when possible and receiving updates and feedback on the bulls and females purchased and their progeny.

The big dry continues for many areas and we are all looking to the sky for much needed rain.

SALE PREPARATION

- We run our bulls in a mob and they do a bit of walking which is great for their fitness and soundness as they are rotated around paddocks grazing on oats, turnips, improved pasture. Supplementary feeding when necessary to keep them growing at around 1kg a day. This years bulls had pasture and crop early on and as that ran out have had quality silage Rhodes grass and forage sorghum and Lucerne hay they also had access to supplementary feed in the weeks leading up to the sale.
- The Females have been grazing on oats in the lead up to the sale with access to grassy Lucerne hay.

Our focus is on delivering fit sound and fertile cattle that will enjoy long and productive lives.

BREEDING SOUNDNESS AND HEALTH

All bulls will have their breeding soundness evaluated including semen testing and scrotal measurements by Alan Post.

Sale bulls and females have had the usual treatments including 7 in 1 vaccinations, Tick Fever - 3 germ blood, Vibrio and tested for pesti virus.
